## Individual Counseling for Expats

How are you doing?

Are you able to fit in? Sometimes that is not easy. Although there are a lot of vacancies, it is not that easy to get a job in the Dutch society.

CarriereCoachCafe is here to help you. We are specialised in helping people finding a (new) career, starting up a business and in general fitting in.

We work with your talent, resume, networking skills, education, experience and personality to help you take the next steps.
